## DETAILED ACTION AND ALLOWANCE

1. Claims 2,4,6-10,12,14,16,19-23,27-31,33,37 and 38 are pending in the current application.

## REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior art of record does not expressly teach or render obvious the invention as recited in independent claims 6, 19, 23, 27 and 37.

The combination of Kirkwood and Hasegawa teaches a web server processing web-based forms col. 21, lines 40 – 50 of Kirkwood], manipulating data according to manipulations rules [col. 18, lines 10 – 39 of Kirkwood], and the manipulation rules comprising at least three hierarchically organized views [col. 8, lines 20 – 67 of Hasegawa]. However, Kirkwood and Hasegawa does not teach the specifics of the three views of the manipulations to be performed. Specifically, the combination of Kirkwood and Hasegawa does not teach the manipulation rules manipulating the data according to the highest priority view; if the data to be manipulated does not contain an entry matching the highest priority view, then manipulating the data according to a second-highest priority view; and if the data to manipulated does not contain an entry matching the second-highest priority view, then manipulating the data according to generic functions.

In addition, the prior art of record does not provide a basis of evidence for asserting a motivation that one of ordinary skill level in the art at the time of the

invention was made would have integrated or modified an manipulation service with the three specific view of manipulation to be performed as recited in the context of the independent claims.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
